

Being the largest supplier of accelerating equipment for **SYNCHROTRON** centers worldwide, the Budker Institute of Nuclear Physics has only an "antique" SR source of the **FIRST GENERATION**. **P. 10**

The existing models largely overestimate the effects of **CARBON DIOXIDE** on **CLIMATE** because temperature changes first, followed by the CO₂ concentration, not *vice versa*. **P. 48**

The Epoch of Acceleration

In the 18th and 19th centuries, in **TOBOLSK** there was a center for producing Russian **SILVERWARE** for the religious needs of non-Russians: **VOGULS** and **OSTYAKS** bought small figurines or utensils to **SACRIFICE** them to guardian spirits. **P. 104**

Only one percent of the **TUVINIANS** hold in highest regard the **TRADITIONAL RITUALS**: a Tuvianian mother receives, on her release from the maternity clinic, the placenta of the newly born **BABY**, packed in a special bag. **P. 118**
