

A PALEONTOLOGICAL SENSATION FROM YAKUTIA: the mammoth child Yuka butchered by cave lions, a Lena horse, and the primeval bison best preserved in the world. **P. 6**

HOW did our GLOBE FORM from the protoplanetary disk of dense gas and dust surrounding the young Sun? What processes governed the formation of its IRON CORE? What is the ORIGIN OF THE MOON? The author proposes his own hypotheses and supports them with geologic evidence. **P. 42**
