# Mites and Ticks Are Benevolent Creatures?

[www.scfh.ru/en](http://www.scfh.ru/en)  
This huge crowd  
of two-spotted spider mites  
*Tetranychus urticae*,  
a malicious pest  
of greenhouse plants,  
can be conquered  
defeated by a biological  
weapon, i. e., another,  
predatory mite  
*Phytoseiulus persimilis*.
